

Craig Overman

Bloomington, IN 47403 | +1 812 320 9392 | craig.p.overman@gmail.com

Summary

Technical Illustrator with 18 years of experience developing visual media for the defense and technology sectors. Delivered a wide range of projects, ranging from photo manipulation and logo redesigns to 3D animations and fully interactive instructional training applications. A jack of all trades by necessity, pivoting and learning new skills as required to achieve the best product. Recently focused on training development, but with a strong desire to return to a wider range of media production. Currently holds a secret-level clearance and skilled in Adobe Creative Suite, 3D development, and various programming languages.
